Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 8-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over McTeer (U.S. Patent 6,204,179), in combination with the following comments.

The rejection is maintained as stated in the Office Action mailed 12-01-04, and as stated below.

Applicant argues that McTeer does not recognize the difficulty identified by the applicant, or the need to provide separate anneals for allowing grain growth and for distributing alloy elements or that the anneals described therein would be suitable for accomplishing such goals. However, it is not necessary for McTeer to disclose that the process of McTeer is performed to achieve the same goals as applicant or to obtain the same advantages recognized by applicant. It is sufficient that the process suggested by McTeer alone or in combination with the remaining references is encompassed by the instant claims. Furthermore, McTeer discloses providing a first anneal to the copper material at a low temperature of 450 °C for a period of time (Column 17, lines 48-49), and subsequently providing a second anneal at a temperature of 500 °C, higher than the low temperature for a period of time to the copper material (Column 3, lines 42-47, and Column 17, lines 55-58), and therefore, because the same materials have been treated in the same manner, formation of large grain sizes in the copper material, and distribution of at least one alloy would have been achieved.

Claims 1-7, and 16-20, are allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joannie García whose telephone number is (571) 272-1861. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Olik Chaudhuri, can be reached on (571) 272-1855. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
